Launch of “GP-Extreme” – Thermal Pad

The multi-award winning technology comes to thermal pads

HONG KONG, 2 September 2015

Thermal Solutions specialist *GELID Solutions* launches the cutting-edge *GP-Extreme* thermal pad. The *GP-Extreme* is a product of *GELID Solutions* GAMER product line.

The *GP-Extreme* is designed to provide perfect thermal contact to the heatsink when installed on PCBs with height differences and uneven surfaces such as micro-controller units, memory ICs, analog ICs and other SMD components. Thanks to its softness and ultimate thermal conductivity the *GP-Extreme* fills spaces properly and offers the best performance in class. The *GP-Extreme* is non-electrical conductive, non-corrosive, non-curing and non-toxic. The *GP-Extreme* ensures an easy application and the thermal pad dimensions of 80x40 mm optimally fit to large PCB surfaces of VGA cards, high-speed HDDs and other densely packed devices.

“Our GP-Extreme thermal pad sets a new standard in cooling of dense PCBs with uneven surfaces. a very practical gap filler”, said Gebhard Scherrer, co-founder and Sales Director of GELID Solutions Ltd.

The *GP-Extreme* thermal pad is available now and has a MSRP of USD 5.35 (0.5mm) and USD 6 for (1mm) or Euro 4.8 (0.5mm) and EUR 5.4 (1mm).
