## **“Rev. 4 Tranquillo” – CPU Cooler**

The best of all multi award winner Tranquillo

HONG KONG, 19 May 2016

Thermal Solutions specialist *GELID Solutions* unveils the latest version of the multi award winner *Tranquillo*. The *Rev. 4 Tranquillo* is a product of GELID Solution SILENT product line.

The engineers of GELID Solutions have improved the last Rev. 3 Tranquillo in almost every aspect. Like the original design the *Rev. 4 Tranquillo* uses 4 power heat pipes and a unique heat pipe constellation but also comes with a number of new technologies implemented to achieve higher cooling performance. The *Rev. 4 Tranquillo* features the *Heatpipe Direct Touch* Technology, a direct thermal connection between CPU core and heat pipes. The new heatsink is also improved with the *Unique Heatsink Shape* Technology, the result of precise software simulations and calculations which makes the air flow resistance of the new heatsink much lower. The *Stacked Soldered Heatpipe and Fin Technology* provides the best quality of soldered joints between heatpipe to fins and ensures the most efficient heat transfer inside the new heatsink.

An improved 120mm fan with the intelligent GELID PWM (Pulse Width Module) control compliments the heatsink. The new *Double Layer Blade* technology is applied to distribute air flow efficiently at low speed. The redesigned PWM IC eliminates any clicking noise. The intelligent GELID PWM curve operates the fan in speed range from 750 RPM to 1600 RPM, it constantly keeps the fan silent but accelerates speed whenever additional cooling is needed. With the 2 sets of fan mounts, a second fan can be installed to improve the cooler performance even further. Additionally, the multi-award winning high performance GC Pro thermal compound is already included in the package. Mounting clips for multiple AMD™ CPU sockets AM2, AM2+, AM3, AM3+, FM1, FM2 and for Intel™ CPU LGA 775, 1366, 1155, 1156, 1150, 1151 sockets, as well as back plates for AMD and Intel mainboards are all included too.

The cooler is RoHS and WEEE conform and carries a 5 year warranty.

*“Our bestselling CPU Cooler series gets a major refresh. The Rev. 4 Tranquillo is the best Tranquillo ever, it offers unprecedented cooling performance and premium product quality”,* said Gebhard Scherrer, Sales Director of GELID Solutions Ltd.

The *Rev. 4 Tranquillo* is available now and has a MSRP of USD 39 or Euro 29.
