Launch of “GC-Extreme 10g & GC-Supreme” – Thermal Compound

The multi-award winning compound now in 10g net content and a new paste for professionals

HONG KONG, 4 July, 2012

Thermal Solutions specialist *GELID Solutions* launches the cutting-edge “GC-Extreme” thermal compound with a net content of 10g. It contains the same material as the multi-winning “GC-Extreme 3.5g” and varies in net content only. In comparison to the other compounds in the market the “GC-Extreme” breaks all records and is most suitable for overclocking. Ultimate heat conductivity makes the “GC-Extreme” the leader of all thermal compounds. As with the other compounds of *GELID Solutions* the “GC-Extreme” is non-electrical conductive, non-corrosive, no bleeding and non-curing. The “GC-Extreme 10g” comes with a GELID applicator which enables an easier application. As a product of the *GAMER* product line the “GC-Extreme” contains 10g.

Beside the “GC-Extreme 10g” *GELID Solutions* introduces the “GC-Supreme” for professional users. The “GC-Supreme” is made from the purest thermal conducting materials and offers superb thermal conduction. Thanks to nano scale produced new ultra-fine molecular structure the “GC-Supreme” fills spaces more effectively than conventional materials. In comparison to other thermal compounds the “GC-Supreme” provides an easier application especially with the GELID applicator. Coupled with excellent thermal conductivity for an attractive price this thermal compound makes the best choice for professionals. As a product of the *SILENT* product line the “GC-Supreme” contains 7g.

The “GC-Extreme 10g” and “GC-Supreme” thermal compounds are available now for a MSRP of USD 25.99 / EUR 19.99 and USD 7.2 / EUR 5.7.
