Launch of “GC-Extreme” – Thermal Compound

The Cutting-Edge Thermal Compound for Extreme Users

HONG KONG, 12 June, 2009

Thermal Solutions specialist *GELID Solutions* launches the cutting-edge “GC-Extreme” thermal compound. In comparison to the previous multi awards winner compounds of GELID Solutions the “GC-Extreme” breaks all record.

Ultimate heat conductivity makes the “GC-Extreme” the leader of all thermal compounds. As with the other compounds of GELID Solutions the “GC-Extreme” is non-electrical conductive, non-corrosive, non bleeding and non-curing. Created for Extreme Users the “GC-Extreme” thermal compound ensures the best heat transfer from your CPU, VGA or even Chipset. Like the other compounds of GELID Solutions the “GC-Extreme” offers a GELID applicator which enables an easier application. As a product of the *GAMER* product line the “GC-Extreme” contains 3.5 g.

The “GC-Extreme” is awarded and recommended by experienced reviewers such as ATI-Forum, Fudzilla and Techpower Up:

“Die GC-Extreme hat GELID Solutions wieder die Leistungs-krone unter den Wärmeleitpasten gebracht. Durch die hervorragende Leistung eignet sich die “GC-Extreme” für leistungsfähige Gamingsysteme und kann somit als neues Flag-schiff angesehen und weiterempfohlen werden. Dies macht auch ATi-Forum.de und verleiht der GELID Solutions “GC-Extreme” den ATi-Forum.de Gold Award.” **ATI Forum**

“GELID's GC-Extreme thermal compound is a clear winner, as it provides lower temperatures for the same price. It is clear that GELID Solutions keeps getting better and better in this game, and GC-Extreme is a clear proof of that. If you take the MSRP of \$9.99 into consideration, GC-Extreme has a clear advantage over the competition and it clearly deserves our Recommended Award.” **Fudzilla.com**

“GELID Solutions has shown us that thermal compound makes a big difference when cooling down a processor with their new, high performance “GC-Extreme” compound. Taking a massive 18 degrees Celsius off the normal paste that comes with your Intel processor, and outperforming all of its competition, the “GC-Extreme” is what you're looking for if you want the highest performing grease in the market. Being paired with an applicator (an innovative, flexible piece of plastic aiding the application of the “GC-Extreme”), you should not have to look any further than GELID Solutions “GC-Extreme” when shopping for some new thermal compound.” **Techpower Up**

The “GC-Extreme” thermal compound is available now and has a MSRP of USD 9.99 / Euro 6.99.
