Launch of “GC-Pro” – Thermal Compound

The best-in-class thermal compound for Professionals

HONG KONG, 9 October 2015

Thermal Solutions specialist *GELID Solutions* launches the *GC-Pro* thermal compound. The *GC-Pro* is a product of *GELID Solutions* GAMER product line.

The *GC-Pro* is made from the purest thermal conducting materials and offers outstanding thermal properties. Thanks to nano scale produced ultra-fine molecular structure the *GC-Pro* fills spaces more effectively than conventional materials and therefore it provides uniform thermal contact with enhanced heat transfer properties. Created for professionals the *GC-Pro* thermal compound ensures the best-in-class performance for your CPU, VGA or Chipset heatsink applications. As with the other compounds of *GELID Solutions* the *GC-Pro* is non-electrical conductive, non-corrosive, non-curing, non-flammable and non-toxic. The *GC-Pro* also comes with a *GELID* applicator which enables an easier application.

“Our GC-Pro thermal compound offers an unprecedented performance for the price. If you’re a Pro your focus is finding the best performing thermal grease at a fair price. And you can get it now with the GC-Pro, no more compromise”, said Gebhard Scherrer, co-founder and Sales Director of GELID Solutions Ltd.

The *GC-Pro* thermal compound is available now and has a MSRP of USD 6.99 or Euro 6.20.
