For immediate release

## **Launch of “ Silent / TC / PWM ” Case Fan**

### **Superior Silent Case Fan Series for Silent Enthusiasts**

HONG KONG, 8 August, 2008

Thermal Solutions specialist *GELID Solutions* announces the launch of their superior Silent case fan series **Silent / TC / PWM** in 3 different sizes (80mm, 92mm and 120mm).

The **Silent** series is designed for silent enthusiasts. GELID Silent case fans provide additional airflow without increasing noise levels and at affordable prices. Precisely balanced fan blades and long life Hydro Dynamic bearing guarantee ultra low noise. To add to the silence fan mounts replace traditional screws and are made of high quality, temperature resistant, extra long lasting rubber and stop vibrations from the fan motor from travelling into your PC case.

For discerning Silent enthusiasts the **Silent TC** fans provide additional airflow by changing the fan speed according to your actual temperature needs, giving you no more noise than absolutely necessary and maximum cooling when needed. A superior IC embedded in the fan's PCB allows smart variable fan speeds.

Designed for advanced users the **Silent PWM** fans provide additional airflow by using Pulse Width Modulation (PWM) to automatically adjust fan speed according to the CPU temperature. An intelligent IC had been integrated into the fan's PCB to exploit your mainboard's BIOS software. This technology is more efficient and convenient than using an external fan controller to adjust the voltage.

*“We have been able to make significant improvements in the way which the fan speed is controlled for both the PWM and Temperature Control versions”* said VC TRAN co-founder and Marketing Director of GELID Solutions Ltd.

<b>MSRP</b>	<b>USD</b>	<b>Euros</b>
GELID Silent 8 / PWM / TC	4.15 / 7.50 / 7.80	3.10 / 4.70 / 5.20
GELID Silent 9 / PWM / TC	5.05 / 9.00 / 9.20	3.70 / 6.00 / 6.15
GELID Silent 12 / PWM / TC	5.75 / 10.50 / 10.80	4.17 / 7.00 / 7.20

All fans are RoHS and WEEE conform and carry a 5 year warranty.
