Launch of “Slim Silence A-Plus”

1U (28mm) Slim ITX CPU Cooler for AMD™ with 2 Power Heatpipes

HONG KONG, 12 July, 2012

Thermal Solutions specialist *GELID Solutions* has upgraded its multi-winning “Slim Silence AM2” to “Slim Silence A-Plus” which is compatible to all updated socket of AMD™.

With a compact heatsink design for Mini ITX, Micro ATX, ATX, HTPC, Panel PC, Car PC and 1U server the “*Slim Silence A-Plus*” contains two power heatpipes and a silent fan with PWM function. The high performance heatpipes ensure a fast and efficient heat transfer from core to aluminum fins. The frameless silent fan includes a ball bearing and a GELID intelligent PWM (Pulse Width Modulation) control which ensures a silent operation at low CPU temperature and accelerates the fan speed when necessary.

The “*Slim Silence A-Plus*” is compatible to AMD™’s AM2, AM2+, AM3, AM3+ and FM1 socket and can support CPU thermal design power (TDP) up to 95W with a good case ventilation.

This product is RoHS and WEEE conform and has a warranty of 5 years.

“Small Form Factor PC’s are trendy nowadays. At the same time performance and speed are required from a small and hot case. Therefore you need to have a reliable, silent, small but still powerful cooler,” said VC Tran Marketing Director of GELID Solutions Ltd.

The “*Slim Silence A-Plus*” is now available for a MSRP of USD 24.99 / Euro 19.99
