

For immediate release

Launch of “AMBER5” – ARGB Controller

The 5-Channel ARGB Controller featuring 366 lighting presets and remote control operation

HONG KONG, 26 November 2020

Tech innovator *GELID Solutions* unveils the latest 5-channel RF Remote ARGB controller. The *AMBER5* is a product of GELID Solutions GAMER product line.

The *AMBER5* controls up to 5 fans, strips or other Addressable RGB (ARGB) devices and boasts 366 vivid lighting presets spanning a carefully selected collection of pre-programmed RGB modes and dynamic effects. It comes with the 21-key RF (Radio Frequency) Remote to provide reliable and responsive remote control in the range of 8 meters. For stable power output, the SATA power connectivity is utilized which delivers up to 85W maximum power and supports ARGB devices with up to 120 LEDs onboard to lit up and control on each channel. The *AMBER5* also supports a passthrough ARGB Sync/Hub Mode via the ARGB Sync Cable equipped with the standard 3-pin ARGB connector (ASUS Aura) and VDG connector (GIGABYTE/AORUS RGB Fusion) compatible to all modern motherboards featuring RGB. You are free to use the controller presets or switch to your own presets designed in your favorite RGB software. The *AMBER5* can be installed inside or outside your PC just in seconds thanks to the built-in magnet. Additionally, the adhesive Sticky Pad is also included to facilitate installation in aluminum-made or non-metallic PC chassis.

“AMBER5 makes RGB easy and simple. It operates fully remote and boasts 366 vivid RGB presets out of the box, you don’t have to be bonded to your motherboard’s RGB software to implement spectacular lighting effects”, said Gebhard Scherrer, Sales Director of GELID Solutions Ltd.

The *AMBER5* is available now and has a MSRP of USD 14.99 or Euro 12.99.
