Launch of “FlexLight RGB” – Accessory
Ultra Flexible RGB LED Strip

HONG KONG, 10 January 2020

Tech innovator *GELID Solutions* unveils the latest LED strip kit for gaming rigs and computer workplaces. The *FlexLight RGB* is a product of GELID Solution GAMER product line.

The *FlexLight RGB* comes with 150 SMD 5050 LEDs and supports the 24bit RGB LED Color Function for over 16.7 million RGB colors controlled in 20 static and dynamic lighting programs. All the color modes can be customized via the included RGB controller unit and IR remote. The *FlexLight RGB* features the 5m long transparent strip with double-sided adhesive to fit any gaming rig, computer desk or workplace. It is made of a specially engineered shockproof and ultra-flexible polymer so you can easily roll or bend the strip body to any shape you want.

“RGB steps beyond PC, peripherals and gaming consoles. The FlexLight RGB is designed to perfectly fit your gaming workplace and enrich your modding experience with 24bit RGB colors and vivid lighting programs”, said Gebhard Scherrer, Sales Director of GELID Solutions Ltd.

The *FlexLight RGB* is available now and has a MSRP of USD 18.99 or Euro 16.99.
