## **Launch of “FLEXMOUNT DUO” – Dual Monitor Arm**

Explore your most productive self in computing and gaming!

HONG KONG, 27 November 2019

GELID Solutions launches the *FLEXMOUNT DUO* – a gas spring dual monitor arm which features enhanced ergonomics, fast-install build and support of numerous screen types and models in ultra flexible dual-monitor setup. The *FLEXMOUNT DUO* is a product of GELID Solutions LIFESTYLE product line.

The *FLEXMOUNT DUO* is designed to perfect your dual-monitor setup with ease, comfort and science. Medical research proves that working long-hours on computers endangers our health. And a great degree of the outcomes is associated with uncomfortable body posture and non-ergonomic desk setup. The *FLEXMOUNT DUO* follows the best practices of ergonomics. It enables easy omni-directional adjustments to position your monitors and orchestrate sitting and desk space at your true comfort. It supports numerous monitor types, up to 34 inches wide and with 8kg weight capacity per arm. Intuitive build makes the *FLEXMOUNT DUO* extremely easy to install and get started with. Seamless cable management also adds to usability. And aerospace-grade materials guarantee reliable and durable operation.

The *FLEXMOUNT DUO* is available now and has a MSRP of USD 79.99 or Euro 72.99.

*“Setting up dual monitors is now a breeze with FLEXMOUNT DUO! It brings in an unprecedented level of ease and comfort to get the best of your monitors, unleash your creative talent and boost your productivity”,* said Gebhard Scherrer, co-founder and Sales Director of GELID Solutions Ltd.
