Launch of “GP-Ultimate” – Thermal Pad

The cutting-edge thermal pad for GPU, Laptop, Game Console and industrial applications

HONG KONG, 6 November 2019

Thermal Solutions specialist GELID Solutions launches the cutting-edge *GP-Ultimate* thermal pad. The *GP-Ultimate* is a product of GELID Solutions GAMER product line.

The *GP-Ultimate* is designed to provide perfect thermal contact to heatsinks when installed on PCB with height differences and uneven surfaces such as power MOSFETs, chipsets, analog ICs, micro-controller units and other high-temperature SMD components. Thanks to its enhanced multilayer matrix, superior material composition and the ultimate 15W/mK thermal conductivity, the *GP-Ultimate* fills spaces properly and offers the best performance in class. The *GP-Ultimate* is non-electrical conductive, non-corrosive, non-curing, non-toxic and supports extended operating temperature range -60° to 220°C. The *GP-Ultimate* features easy application and has the thermal pad dimensions of 90x50mm with 0.5mm, 1mm, 1.5mm and 2mm thickness versions to best fit for large PCB surfaces of GPU cards, motherboards, add-on cards and any other densely packed electronic device. Custom size options are also available upon request.

“Our GP-Ultimate thermal pad comes with enhanced technology and ultra durability at the heart. It is a perfect weapon to re-pad your GPU, laptop or game console hassle free and step up to a new level of performance for your applications”, said Gebhard Scherrer, co-founder and Sales Director of GELID Solutions Ltd.

The *GP-Ultimate* thermal pad is available now and has a MSRP:

TP-GP04-A (0.5mm): USD 4.95 or Euro 4.5

TP-GP04-B (1mm): USD 7.0 or Euro 6.35

TP-GP04-C (1.5mm): USD 8.0 or Euro 7.2

TP-GP04-D (2mm): USD 10.0 or Euro 9.0
