Launch of “Phantom Black” – CPU Cooler

Ultimate CPU cooler for Intel™ and AMD™ CPU with TDP over 200W

HONG KONG, 15 August 2017

Thermal Solutions specialist *GELID Solutions* unveils the latest ultimate performance CPU cooler for Intel™ and AMD™ CPU. The *Phantom Black* is a product of GELID Solution GAMER product line.

The *Phantom Black* comes with the advanced twin-tower heatsink and the specially crafted double layer mix of 3 super-sized 8mm power heat pipes and 4 optimized 6mm power heat pipes. The twin towers of the heatsink are composed to substantially reduce air flow resistance and the 7 heat pipes guarantee the best heat transfer within the heatsink elements. Additionally, the high-class black nickel plating enhances the heatsink per-fin efficiency and improves durability. The *Phantom Black* also utilizes a special high-compatibility size factor to facilitate installation and to broaden compatibility to computer chassis of various types. Full support of TDP over 200W makes the *Phantom Black* a rock-solid CPU cooling solution for pro gamers and overclockers.

The *Phantom Black* features a matched pair of improved 120mm fans with the intelligent GELID PWM (Pulse Width Module). The new *Double Layer Fan Blade* technology enhances air flow distribution at low speed, and the redesigned PWM IC eliminates any clicking noise. The intelligent GELID PWM curve constantly keeps the fan silent but accelerates speed whenever additional cooling is needed. With the 3 sets of fan mounts, a third optional fan can be installed to improve the cooler performance even more. Additionally, the multi-award winning high performance GC-Pro thermal compound is already included in the package. Enhanced mounting clips for multiple AMD™ CPU sockets AM2, AM2+, AM3, AM3+, AM4, FM1, FM2 and for Intel™ CPU LGA 775, 1366, 1155, 1156, 1150, 1151 sockets, as well as the back plate for AMD™ and Intel™ mainboards are all included too.

The cooler is RoHS and WEEE conform and carries a 5 year warranty.

“The Phantom Black is our latest top-notch cooling solution. With the high-class mixture of advanced cooling technologies and noble black design it makes overclocking easy for all the ultimate performance enthusiasts”, said Gebhard Scherrer, Sales Director of GELID Solutions Ltd.

The *Phantom Black* is available now and has a MSRP of USD 47.30 or Euro 39.99.
